Spring Forward and Still Sleep Great with Sleepio

It also means that you lose an hour of sleep when we spring forward – but thanks to your HII benefit Sleepio, you can ensure that you still get a good full night's rest.

Sleepio is an online sleep improvement benefit proven to help you clear your mind, improve your sleep and have better days in just six weeks. Whether you need a few basic tips or require more detailed guidance on how to improve your sleep, Sleepio can help by working with you on falling asleep faster, spending less time awake at night and functioning better the next day.

Get started by visiting sleepio.com/hii or by downloading the Sleepio app onto your mobile device from your preferred app store.

Using the Virgin Pulse App

Your MyChart and Virgin Pulse/Wellness Online accounts may have been set up using different emails. To ensure that you can log on to the Virgin Pulse app, you must use the same email address that you used to create your Virgin Pulse/Wellness Online account on the internet browser.

Please Note:

Your MyChart email and user ID are NOT tied to Wellness Online/Virgin Pulse. After signing in to Wellness Online for the first time, the sign-on process is simplified with a single sign-on and you will automatically be directed to Wellness Online/Virgin Pulse via MyChart.

When you go to log in again, the default email shown in the MyChart box is your work email, which isn't necessarily what you used to register for Wellness Online/Virgin Pulse. However, because of the single sign-on, you don't need to use this to log in.

For eligibility information, visit HillBenefits.com.

KNOW YOUR NUMBERS SHOUT OUT

"I participated in the Know Your Numbers program because it is a convenient way to get important health screenings. I incorporated lifestyle changes based on last year's results, so it was great to see improvements in this year's numbers. I encourage others to participate because the screening is free, quick, and easy!"
